7.2 Best Practices

Best Practice I

Title of the Practice: To develop Students awareness about self-employment through participation in Entrepreneurship Development Programme through various activities.

Objectives of the practice:
1) To involve the students in various Entrepreneurship and help them to become successful Entrepreneurs and industrialists.

Context: All the courses in the institute are skill based. Such initiatives will help the students to identify the skill set and personality traits for Entrepreneurs.

The practice involved following activities.
1. Two days of Entrepreneurship development seminar.
2. Seminar on Entrepreneurship Development program and career opportunities after UG & PG
3. Expert talk on opportunities in IT Sector

Evidence of success:
- Most of the students are able to identify their skill set and personality traits.
- Some students were thinking about how to transform their innovative ideas into facts.
- Four students participated in Avishkar competition by Dr. Babasaheb Ambedkar Marathwada University.

Problems Encountered:
- Most of the students are traditional thinkers to give importance to get job only.
- Some students face to understand the terms of innovation and processes of EDP
- Very few students were willing to go for educational tour.

Resources required:
- Experts in the field of Entrepreneurship, business enterprises.
- Digital seminar hall with ICT facility equipped and required furniture.
- College bus to attend the educational tour.

Best Practice II

Title of the Practice: Implementation of ERP modules for academic and administrative effectiveness**.**

Objectives of the practice: To enhance the qualitative academic and administration work for students.

To remove the financial crises by paying academic or exam fees online. To trend the student to use of ERP software for easy and day to day work.

Context: ERP is the internet based process, can be used on mobile also. It is used for admission, financial, and academic process. This also kept the data forever and easy to handle.

The practice involved following activities:
>   Institute having various processes on ERP like Admission of student, Academics, Staff personal profile, Financial process like fees receipt, bonafied etc, Examination, Library module which are used for teachers, office staff and students.

Evidence of success:
- Students are well trended and doing all transaction through their mobile like book issue and return, bonafiled certificate, TC, Fees payment etc and it also kept record on internet and available on one click. This helps to remove financial crises.

Problems Encountered:
- Students should have mobile and internet facility
- It is large and to many activities to handle

Resources required:
Mobile or computer/laptop with internet facility.
