

Mechanism of Internal Assessment is Transparent and Robust in Terms of Frequency and Mode

College provides information to all students for internal assessment of examination during Lectures at very first semester. Every faculty member prepared lesson plan and discussed with student in first lecture of subject. Schedule of internal exams, Academic Calendar is strictly followed by College. Dates for the internal Examinations are notified by the HOD of respective department, at least one week in advance. Internal assessment of examination is helpful for upgrading the students' academic success

The college takes up initiatives to make internal assessments transparent and effective:

Updation of different university notifications about the examination is provided to the teachers as well as students. The university norms relating to examination pattern are communicated to the students. Minimum 2 class tests are held per semester. Class Test Time tables of respective departments are displayed well in advance on the notice boards and also communicated on ERP and Whatsapp Groups. Internal marks are awarded by the teacher on the basis of overall performance of student. This can be judged on the basis of assignments, presentations, interactions, projects or oral tests etc. Teachers assign innovative projects to students to build and check their creative skills. Presentations are taken on topics related to the syllabi or even on topics other than the main paper to develop the interest of students. Thus, a continuous internal assessment system works throughout the session to evaluate the students on the basis of their daily performance and growth. The students can interact with teachers after test / tutorial for their doubts and queries. Students can share their educational as well as personal problems with the Mentor. The method of internal assessment helps the teachers to evaluate the students more appropriately. Due to internal assessment, the interest of the student towards learning and attending the classes has been also increased. It has created the interest among the students to take active participation in various co-curricular and extra-curricular activities for their overall personality development. The seminar presentation improves the communication skills of the students which is very essential to face the interviews. In this way mechanism of internal assessment is transparent and robust.
