## **Report On**

**Title:** Comprehensive HIV/AIDS Awareness and Check-Up Camp Organized by MIT CIDCO in Collaboration with District AIDS Prevention and Control Unit, District General Hospital Aurangabad.

**Introduction:** MIT CIDCO, in partnership with the District AIDS Prevention and Control Unit and District General Hospital Aurangabad, organized a groundbreaking HIV/AIDS awareness and check-up camp for students. The event aimed to promote health awareness, provide preventive education, and offer voluntary HIV testing services to the participants.

### **Event Highlights:**

**Location and Participants:** The camp took place at MIT N-4 CIDCO Campus, attracting a significant number of students from various Courses of institution. The collaboration with the District AIDS Prevention and Control Unit and District General Hospital Aurangabad ensured the availability of medical professionals and resources.

### **Awareness Activities:**

**Poster Presentation:** Informative posters were displayed, illustrating key facts about HIV/AIDS, its transmission, prevention methods, and the importance of early detection.

**Face Painting:** Creative and engaging face painting activities were organized to attract attention and initiate conversations about HIV/AIDS awareness. Students participated enthusiastically, turning the event into a vibrant and visually appealing experience.

### **Health Check-Up Services:**

**Voluntary Testing:** Trained medical professionals conducted confidential and voluntary HIV testing for participants who opted for it. Pre-test counseling and post-test counseling services were provided to address concerns and offer support.

**General Health Check-Up:** In addition to HIV testing, a general health check-up was offered to all participants. This included basic health assessments, consultation with healthcare professionals, and distribution of informational pamphlets.

### **Interactive Sessions:**

Experts from the District AIDS Prevention and Control Unit conducted interactive sessions on HIV/AIDS, addressing myths, stigma, and discrimination associated with the virus. Students had the opportunity to ask questions and clarify misconceptions.

Guest speakers shared personal stories and testimonials, emphasizing the importance of responsible behavior, safe practices, and destigmatizing HIV/AIDS.

**Certificates and Prizes:**

Certificates of participation were awarded to all students who took part in the event, emphasizing their contribution to spreading awareness.

Cash prizes were awarded to the winners of the poster presentation and face painting competition, serving as an incentive for active participation.

**Guest Speakers:**

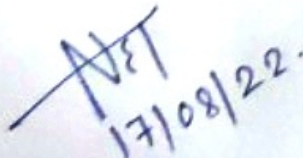

Esteemed speakers from District AIDS Prevention and Control Unit shared valuable insights on HIV/AIDS prevention, treatment, and the importance of regular check-ups.

**Collaborative Efforts:**

The successful execution of the event was made possible through the collaborative efforts of MIT CIDCO, the District AIDS Prevention and Control Unit, and District General Hospital Aurangabad.

The event showcased the commitment of these organizations to community welfare and public health.

**Conclusion:** The HIV/AIDS awareness and check-up camp organized by MIT CIDCO in collaboration with the District AIDS Prevention and Control Unit and District General Hospital Aurangabad proved to be a valuable initiative in promoting health awareness among students. By combining educational activities, testing services, and interactive sessions, the event contributed to breaking down barriers, reducing stigma, and fostering a more informed and healthier community. The success of this camp highlights the importance of ongoing efforts to address public health issues collaboratively.
