### 2.3.2 Teachers use ICT enabled tools for effective Teaching-Learning process.

In the academic year, the implementation of ICT-enabled tools by teachers for effective teaching and learning has shown significant progress. Teachers have successfully integrated various digital tools into their teaching methods, enhancing the overall educational experience. The use of interactive presentations, online quizzes, and educational software like ERP has fostered a more engaging and dynamic learning environment.

Teachers have actively embraced technology to create a more interactive and personalized learning experience for students. This includes the use of multimedia resources, educational apps, and digital simulations that cater to diverse learning styles. The integration of ICT has not only made lessons more interesting but also facilitated better understanding and retention of the curriculum.

Regular workshops and Webinars have been conducted to ensure that teachers are proficient in using these ICT tools. Use of LCD Projector results students is more actively involved in their learning, and there is a noticeable improvement in their academic performance. The commitment to incorporating ICT into the teaching-learning process reflects the College's dedication to staying abreast of educational advancements and providing a modern and effective learning experience for students.
