The chief guest of the Inaugural function was Prof. Dr. Pramod Yeole Honourable Vice Chancellor of Dr. Babasaheb Ambedkar Marathwada University. The President of the event was Prof. Munish Sharma, Director General of MIT group of institutions. Special guest of the program was Prof.(Dr) N. N. Bandela. Traditional lamp lighting was followed by preamble of the Seminar delivered by the Vice-Principal of MIT CIDCO, Aurangabad, Dr. Mahendra H. Kondekar, convener of the Two-day National Seminar on the topic "Fostering Quality Improvement in Higher Education with focus on Teaching, Learning and Evaluation". A brief introduction and importance about the Seminar for the stakeholders was given.

In his presidential talk Prof. Munish Sharma spoke about, Teachers and educators who are passionate about their roles create an environment conducive to learning. Their commitment goes beyond mere instruction; they inspire students to explore, question, and engage critically with their subjects. The narrative of teaching must evolve to accommodate change. Embracing new methodologies, technologies, and approaches revitalizes education. Adapting the teaching story acknowledges that education is a dynamic field, necessitating continuous improvement. He emphasized that quality education starts with effective management and well-informed decision-making. Effective resource management, including financial, human, and infrastructural resources, ensures that the institution operates optimally. The time table is more than just a schedule; it's a strategic component of effective education. A logical time table should be designed to optimize learning outcomes, incorporating factors such as the natural cognitive rhythms of students, varied learning activities, and breaks for rejuvenation. Also, innovative approaches ensure that education remains relevant, engaging, and tailored to the needs of the ever-changing learning landscape.

A very inspiring address was delivered by the chief guest Prof. Dr. Pramod Yeole wherein he mentioned that education is a cornerstone of societal development and progress. It plays a pivotal role in shaping individuals' minds, preparing them for the challenges of the modern world. Dedication is the driving force behind effective education. Language is a powerful tool for communication and learning. Offering education in regional languages promotes better understanding, especially among students from diverse linguistic backgrounds. It fosters a sense of inclusivity, enabling students to grasp complex concepts more effectively. A relevant curriculum bridges the gap between academia and industry. Designing curricula aligned with industry needs equips students with practical skills and knowledge, enhancing their employability.

Guidance and motivation are catalysts for academic success. Educators who offer guidance, support, and mentorship help students to overcome challenges and discover their strengths. The emotional connection between educators and students extends beyond the classroom. The importance of innovation and adaptation prepares educational institutions to evolve with the times and meet the needs of the future. Sir also touched on the points that the National Education Policy emphasizes skill-based education, Effective teaching transcends a mere job; it becomes a mission and a passion, Research is the cornerstone of knowledge advancement. Quality research drives innovation, progress, and societal development. The National Assessment and Accreditation Council (NAAC) evaluation should be a continuous process. Regular self-assessment and improvement initiatives ensure that educational institutions remain aligned with quality standards and provide the best possible learning experiences.

Dr. Sonal Bachhao anchored the inaugural program. A brief introduction about the vice Chancellor was given by Dr. Shashibala Surapaneni, and the vote of thanks was delivered by Asst. Prof. Ranjay Kale IQAC coordinator, MIT, Cidco Aurangabad.
